

## Trauma Informed Approach Assessment

This assessment is based on knowledge we believe educators should know when delivering sex education to youth. Participating in the assessment will help you identify what information you currently manage as well as current knowledge gaps to address. This document consists of an assessment, an answer key for the assessment, a specific resource to address knowledge gaps for each question, and a list of general resources on the topic.

1. Trauma can ... (select the three best answers):
  - a. Occur on different levels (individual, intergenerational, etc.)
  - b. Prevent someone from meeting their social, emotional or physical needs
  - c. Only be overcome through individual therapy
  - d. Trigger a flight, flight, freeze, or appease response in the brain
  
2. Facilitating trauma-informed sex education is important because (select the two best answers):
  - a. Trauma is common so there are likely to be people in sex education classes that are impacted by trauma
  - b. Trauma-informed sex education will ensure people don't experience more trauma in the future
  - c. People who have experienced trauma are the only ones who need trauma-informed sex education
  - d. Trauma-informed sex education will improve the experience for all participants
  
3. The Fight, Flight, Freeze, Appease responses occur when (select the two best answers):
  - a. a person experiences trauma or is triggered by a traumatic experience
  - b. a person's "survival brain" (amygdala) can overtake their "thinking brain" (pre-frontal cortex)
  - c. a person's "thinking brain" (pre-frontal cortex) can overtake their "survival brain" (amygdala)
  - d. a person experiences a mild negative event
  
4. Which of the following could be an indication a student/participant experience a trauma response:
  - a. Becoming visibly distraught or upset
  - b. Yelling at someone
  - c. Leaving the space without explanation
  - d. Making a joke

5. When a participant demonstrates a trauma response during a lesson, the facilitator should (select the three best answers):
  - a. tend to societal norms
  - b. tend to self
  - c. tend to the group
  - d. tend to participant
  
6. How can you as the facilitator support a participant who demonstrates a trauma response? (select the two best answers)
  - a. discuss the trauma with the group
  - b. help the participant move from survival brain to thinking brain
  - c. ask the participant for details about the trauma
  - d. allow the participant to remove themselves from the class
  
7. What do you need to know to facilitate from a trauma-informed lens? (select the two best answers)
  - a. A participant's previous experience with trauma
  - b. The political climate of the school, group, or community
  - c. Subjects that are likely to trigger you
  - d. Your stress responses and how to work through them in the moment
  
8. Developing a trauma-informed approach when delivering lessons requires the facilitator to (select the three best answers):
  - a. Be calm
  - b. Have tolerance for discomfort and uncertainty
  - c. Be able to resolve participant trauma
  - d. Model boundaries and empathy
  
9. Trauma-informed facilitation includes (select two best answers):
  - a. Discuss the trauma with the participant
  - b. Give the participant advice
  - c. Identify participant needs
  - d. Connect with the participant
  
10. Trauma informed facilitation is about creating a learning environment that (select the two best answers):
  - a. recognizes and responds to the impacts of trauma
  - b. promotes safety and agency of all people
  - c. prevents trauma from happening to youth
  - d. resolves participant trauma

**Content Knowledge Assessment Answer Key**

Question #	Correct Answer
Question 1	a, b & d
Question 2	a & d
Question 3	a & b
Question 4	a, b, c & d
Question 5	b, c & d
Question 6	b & d
Question 7	c & d
Question 8	a, b & d
Question 9	c & d
Question 10	a & b
